SUMMARY

I'm an individual who's driven by high levels of motivation, and I hold a keen interest in technical growth. I developed an application that highlighted local high scores with a focus on responsive design implementation. Having experience in both front-end and back-end development, allowed me to seamlessly integrate APIs.

EXPERIENCE

Earthing Assistant
ECS Solutions

📅 May 2020 - April 2021   📍 London, UK

- Ensured all risk-assessments were carried out before completing tasks, leading to a 100% completion of jobs without any injuries, compared to 95% in the previous year
- Assessed any potential risks and reported back to the nominated person (supervisor)
- Collaborated with an authorised person to isolate overhead lines, which ensured the safety of railway workers on-track

Railway Civil Engineer
Stone Alliance Services

📅 March 2018 - February 2020   📍 West Midlands, UK

- Participated in a team of 6 to complete the stressing and de- stressing of rail lines
- Quickly adapted to learning new machinery such as a Chembre, which led to a 20% increase of speed in completing tasks
- Liaised with supervisors to ensure tasks were completed to the companies standards

Railway Engineer
Carillion PLC

📅 January 2017 - January 2018   📍 UK

- Collaborated with my team members to work additional hours during the holiday season, ensuring timely completion of our project prior to the new year. This collective effort resulted in all project milestones were met
- Gained extensive experience in a variety of groundwork tasks, such as: trial holes, buried ducting & electrical cable management
- Achieved a 100% success rate in all tasks and received outstanding feedback from management

SKILLS

JavaScript   ReactJS   NodeJS   PostgreSQL
Adobe Photoshop   Figma   HTML
CSS   Git Version Control   Jest

ACHIEVEMENTS

🏆 **Completed a Full Stack bootcamp**
Successfully completed an intense 1 year Full Stack developer bootcamp, which has been a pivotal and life-changing achievement

💗 **Passionate mentor in coding**
Throughout Code Your Future I've demonstrated a passion for mentorship, by consistently going above and beyond to support my classmates in their coding journey, flourishing a collaborative and inclusive learning environment

💗 **Being a good dad!**
Although its not career relevant, my kids are my biggest achievement! They constantly inspire and fuel my drive for success both personally and professionally.

🏆 **Acquired space in iCentrum**
In 2024, I successfully secured dedicated study space at iCentrum for Code Your Future students. iCentrum is a digital tech campus which hosts for 120+ businesses
